
Going after some really good players

We're not getting them (so far)....but at least we're trying. I love that Coach has recruited guys like Brockeith Payne, Tony Mitchell and Brandon Peters.

Plus these two 2011 prospects (listed on the other board) look like great prospects.

If we could get to the Dance, naturally that would help our chances. As a matter of fact....if we'd been Dancin' more recently than WKU.....might that have made the difference in Brandon Peters commitment? Maybe.

The first step to getting those sorts of players is going after them hard. JJ has always been good at finding talent that wasn't necessarily rated the highest(except for someone like Tristan who WAS very highly rated). If we can get some of these kids it'd be outstanding.
